

Consistent Excellence,

I am the Elder in charge of youth programming for a large and growing local church. We asked the Mike and Shawn to come to educate our parents about the latest drugs of abuse and drug paraphernalia.

They were exceptional from start to finish. They were prompt in replying to every question, were willing to customize their material to meet the needs of our audience, were on time the day of the session, had all the latest examples for show the audience and were extremely thorough in their presentation

They also took time after to sit and work one-on-one with several parents who had come to realize through this presentation that their children were using drugs.

I have worked with Mike and Shawn for years in my other job, developing/providing education for court personnel and they have consistently been one of the highest rated programs our office has ever hosted. And as a conference planner, these guys could not be easier to work with. They have a wonderful presentation style and quickly engaging the audience and holding them right through to the end of the day.

They are always on the cutting edge bringing awareness of new drugs long before many officers on the streets have even heard about them. No matter the audience (parents, teachers, judges, officers, counselors) this program, its experienced and professional faculty will educate, entertain and surpass all expectations.
